Re: project (KF) 01-471/94: "Better health for Mother and Child"

The regional scientific ethical Committee for the municipalities of Copenhagen and Frederiksberg has approved the above application on the 8th of February 1995.

On the 13 June 1995 the Committee furthermore received the draft participants' information leaflet together with the revised consent form for the project in question.

The committee fully approves of the content of the written material.
