

Code book for 4th interview (the child is 18 months old)

Revised of:

Anne-Marie Nybo Andersen, professor
Line Stenmann Kantsø, student assistant

Section of Epidemiology, Institute of Public Health, University of Copenhagen

Date of revision: 23.11.2018

Documentation and guidance

All variables start with a letter and contain three chiffers (e.g. R000). The answer categories are listed starting with 1.

In most questions, the "undefined" variable has been given code 9, and the "irrelevant" variables has been given the code 10. 11 code for "irrelevant in this version, as the question was not asked". However, in questions with 10 or more answer categories these variables have been given code 99, 100 and 101. In continuing variables, which can include the value 99, the codes 999 and 1000 are used. In date variables code 99999999 and 100000000 are used.

If a question is dependent on a previous answer a note is written in Conco1as (e.g. R001, Dependent on R000) above the question. Likewise it is specified which question the respondent jumps to if the following questions depend on the answer of the question concerned (e.g. → R002).

Variable names ending with a letter (e.g. R002A) is a sub question of the previous question where it does not make sense to assign the question a new name.

INTRODUCTION

Hello, you are speaking to _____ from the investigation Better Health for Mother and Child

(I would like to speak to: _____)

Is it fine with you if we make the interview right now? It will take approximately 15 minutes?

If NO make an appointment for the interview

D000.1-4 Before we get started I would like to know if you had a boy or a girl?

- I assume that the child lives with you, normally.

Number of simultaneous questions: 2 (combination of 1 or 2 with 3)

D000_1. Boy

D000_2. Girl

D000_3. Child does not live with the mother on a regular basis

D000_4. Do not want to answer

If no mark in 3. → D001

D000A.1-3 As most questions are about your child I do not think we should make the interview.

(If the mother does, after all, want to carry through with the interview, please do not read the following text to her)

We want to thank you for participating so far in this investigation. Without your and all the other mothers' participation we would not have been able to gather the knowledge that we have now to improve the health for mother and child.

Number of simultaneously possible answers: 2 (combinations of 1 with 2 or 3)

D000A_1. Type comment (obligatory): _____

D000A_2. The mother still wants to carry through with the interview
