Danish National Birth Cohort Symposium and 20th Anniversary Programme

13:00-14:00 Lunch and DNBC poster exhibition

14:00- 17:00 From fetus to adulthood: Highlights from 20 years of DNBC research

Chairs: Anne-Marie Nybo Andersen and Thorkild IA Sørensen

Including:

Does mode of delivery affect long-term maternal health?

Ellen Aagaard Nøhr, DNBC and University of Southern Denmark

Dietary Studies in the DNBC

Sjurdur F. Olsen, DNBC and Statens Serum Institut

Fever in pregnancy. Any reason for worry?

Julie Werenberg Dreier, Aarhus University

The DNBC Biobank – contributions to science

Mads Melbye, DNBC and Statens Serum Institut

Maternal and child genetic effects, prenatal exposures and childhood obesity outcomes

Camilla Schmidt Morgen and Theresia Maria Schnurr, University of Copenhagen

Disordered eating and eating disorders in a population based sample

Katrine Strandberg-Larsen, DNBC and University of Copenhagen

Being the Danish National Birth Cohort

DNBC youth panel / DNBC Ambassadors

The first results from the Puberty Cohort nested within the DNBC

Cecilia H. Ramlau-Hansen, DNBC and Aarhus University

Keeping the show going: Contact with thousands of participants and researchers

Inger Kristine Meder and Anne Aakjær, DNBC secretariat, Statens Serum Institut

Poster exhibition of 20 years of DNBC studies during the coffee break

17:00 Birthday cake and drinks At the top of the Mærsk Tower
Great views of Copenhagen and the Distortion Festival
